

AT SETT 2026, BISCABOÏS SCALES UP AND CONFIRMS ITS EUROPEAN AMBITION

A new outdoor furniture collection, a comprehensive approach to campsite design and international development : in Montpellier, Biscaboïs presents a new stage in its growth.

Dates : 3, 4 and 5 November 2026

Venue : Montpellier - Parc des Expositions

Location : Hall 13 - Aisle C - Stand C66

To discover : Terraces, bespoke outdoor projects and new outdoor furniture collection

Biscarrosse, October 2026 - Following Atlantica in Niort, Biscaboïs will continue to present its new offer at SETT 2026 in Montpellier. Across a 240 m² space, the company will showcase the evolution of its positioning: moving beyond simply equipping a terrace to designing and delivering complete outdoor living spaces.

FROM TERRACE SPECIALIST TO COMPREHENSIVE OUTDOOR DESIGN PARTNER

Founded in Biscarrosse in 2002, Biscaboïs has grown around mobile-home terraces and outdoor facilities for campsites. The new teak and bamboo furniture collection marks a new stage : addressing the entire outdoor experience, from private terraces to pool and wellness areas, as well as restaurants, bars, lounge areas and shared spaces.

BISCABOÏS' STRENGTH : TURNING IDEAS INTO REALITY

This diversification builds on Biscaboïs' long-standing model : combining a design office, technical expertise, commercial support, logistics resources, installation and after-sales service. The company can therefore support projects from initial design through to on-site implementation.

EUROPE AS A NEW GROWTH TERRITORY

This transformation of the offer accompanies a new phase in Biscaboïs' international development. The company is notably structuring its commercial approach in Spain and the Netherlands. The objective is to progressively deploy the Biscaboïs model among campsite operators and groups : an approach combining design, technical solutions, furniture, logistics and installation capability.

ABOUT BISCABOÏS

Based in Biscarrosse in the Landes region, Biscaboïs has specialised since 2002 in mobile-home terraces and outdoor facilities for camping professionals. The company supports campsites in France and across Europe through an integrated offer combining concept development, design, manufacturing, logistics, installation and after-sales service. Since 2024, Biscaboïs has obtained the AFNOR « Engagé RSE » label, « progression » level.

"Our ambition is simple: to help campsites create outdoor spaces that are more coherent, more desirable and more comfortable. This new collection is a natural extension of our long-standing expertise in terraces and outdoor design."

— Elsa Courregelongue, President of Biscaboïs
